

Trust Electronic Remittance Report Automation

ROI: Saving Money

Realize the benefits of digital processing with a Return on Investment that pays for itself

Clear Remittance Payments Faster

TERRA allows for electronic clearing of funds through either electronic check processing or direct payment through an Automated Clearing House (ACH) transaction. This allows the funds to be transmitted electronically, eliminating the 3–6 non-interest bearing days before payments are cleared through the deposit and lockbox cycles.

Reclaim Your Office Space

Take back the space currently being used by bulky storage cabinets. Electronic storage of remittance reports, auditor reports, and other administration documents can significantly decrease the amount of space that file cabinets and associated storage facilities occupy.

Reduce Administration Cost

TERRA, an electronic-based digital system, eliminates the need to print remittance reports, saving on print costs. Due to the reduction in printed materials, you will also see a decrease in associated postal costs.

TERRA, through an easy to use data export tool, also allows for a reduction of costly man hours that need to be applied to re-entry of hours into eligibility software.

Our services cover many areas and we rely on the fact that we can find the right solutions for installations, integrating systems and peripherals, training, and creating unique customizations. Please contact us for more information and client references.
